

LaCie 100 Series Monitors

The Outstanding
Visual
Experience
For
Digital
Professionals

● VISUAL COMFORT

The LaCie 100 Series LCD Monitors are designed to offer a premium visual experience for professionals, especially digital content creators. Whether for design work, layout or editing, the LaCie 100 Series Monitors ensure that digital documents are displayed in their best light.

● ERGONOMIC FOR YOUR WORKSPACE

Thanks to their flexible stand, the LaCie 100 Series Monitors can be height-adjusted, tilted and swiveled to adapt to your work environment. They can also be used in conjunction with a desk clamp and extendable arm, allowing the display to be moved in every direction without taking up valuable desk space. Custom configurations of two to four displays can thus be created if desired.

● PREMIUM LCD PANEL

Using Premium MVA (Multi-domain Vertical Alignment) LCD technology, these monitors offer a combination of very high contrast (1000:1 for the LaCie 119 and 700:1 for the LaCie 120) and wide viewing angles of 170 degrees. This ensures an outstanding viewing experience for the user, which is further enhanced by a discreet black casing.

● BROAD COMPATIBILITY

Compatible with both PC and Mac workstations, the LaCie 100 Series Monitors offer both analog (VGA) and digital (DVI) connections. They are also covered by an extended 3-year limited warranty in the US and Japan and 3-year advance swap warranty in Europe.
